

## Our Track Record

At a reasonable price, Salmon's promptly provided a reliable quote, and carried out a difficult move. An entire office and lab had to be dismantled, carried down three flights of stairs, and reassembled at the new location. The entire move was done on a Saturday, on schedule and without surprises. Your staff was professional, efficient and took great care in moving all of the items and furniture to our new office.

We would use Salmon's again – they are the best movers we have ever used and wholeheartedly recommend them.

This letter is to express my appreciation of the extremely competent professionalism of the two-man delivery team. They had on hand all the equipment and tools necessary. Interior access doors were removed and efficiently replaced, freezer gently maneuvered and all work conducted along with friendly, easy chat. This was in stark contrast to several recent moves in and out of our previous (eventually not-repairable) freezer. The several previous moves – not done by Salmon's – were unbelievably problematic, thus I was so pleasantly surprised at the smooth competence of Salmon's staff...Salmon's would be my first choice for any future transport needs.

Leo and the crews moved everything from complex scientific equipment to concrete tables and chemicals. All was done quickly, professionally, and with no disruption to ongoing research and teaching at the university. I would feel safe is asking Salmon's Transfer to move anything.

The ability of everyone to quickly organize, dismantle and load our belongings was outstanding and it was accomplished with care, patience, humour and levity.

The level of service provided by you and your team certainly exceeded our expectations...specifically the leadership, patience and professionalism of Peter W, who accommodated our many last-minute requests and handled numerous difficult tasks with a smile on his face, all the while assuring us that he was "here to take care of us". I would highly recommend Salmon's to anyone planning a move, whether an office or home relocation.
