

Refundable Material Program

This program was designed to provide an economical, “green” solution to our customers. It ensures the use of proper moving cartons for customers that elect to do their own packing.

How it works:

The sales consultant will estimate the number and type of cartons required for the move. If the customer elects to pack their own goods, they are eligible for the “Refundable” material program. The customer can pick up the packing materials at our warehouse prior to their move, or for a nominal cost, we will deliver to your residence. The cost of the cartons will be added to your moving bill. Within 90 days of delivery, after and all boxes are unpacked and flattened, you can deliver them back to our warehouse or for a nominal cost we will arrange to pick them up. Within a week, a refund cheque will be mailed to you. If you request “New” materials only, the refunded amount will be less than if you opt for “Recycled” materials. Please refer to chart below for prices.
